PROGRAM DETAILS

San Clemente Christian School is pleased to offer a hybrid homeschool program for grades 7 through 9 for the 2019-2020 school year. This program provides an alternative approach to traditional schooling with students immersed in authentic learning opportunities. It consists of three days of teaching in core subjects, an internship career immersion program, professional guest speakers, and monthly community outreach/field trip opportunities. An additional on-site independent study schedule/lab is available on Thursday and Friday.

This program utilizes a flipped classroom model where students receive instructional content outside the classroom and then apply that knowledge in class under the guidance of their teachers. Through this model, teachers are able to focus instructional time on activities that emphasize higher order thinking skills, such as analyzing, synthesizing, evaluating, and creating. Students will collaborate with their teachers and peers to both demonstrate knowledge and actively construct it.

The ultimate goal of this homeschool program is to offer an alternative learning experience that values each student's unique experiences, needs, and goals.
